GHC Guide to 1 Sap Tank Kills

This guide is brought to you by the German High Command as a way to enhance your gaming experience. Remember, one picture is worth 1000 kills. Print this guide and use it as a reference in-game and you are guaranteed a 1 satchel charge tank kill every time; no escape, no surrender, no de-spawn. Take your time and use the best flanking route to sneak up on your prey! Happy hunting! Thanks to Ring of the 31st Wrecking Crew for doing the research and video and Jaf086 for the documentation. Go Axis!
