

This report will no longer be published. The same information is available via the myfantasyleague.com Web site for our league, <http://football.myfantasyleague.com/2005/home/46421>, and is OFFICIAL until further notice – no matter what it may say elsewhere on any Web page or report.

- To see rosters pull down the “Reports” menu, select “Franchise”, and select “Rosters” again. Click on either Display format, Full Format and Grid Format. In Full Format you can see which players were drafted and in what round and which ones were picked-up since the draft.
- To see when players picked-up since the draft were actually acquired use the “Transactions” report on the same menu.
- To find out how many years a fourth round draft pick has been retained a report will be forthcoming. Until then you may look at an old format Official Roster from the 2005 season or ask the commissioner.
