Technical Expertise	<ul style="list-style-type: none"> • Design of application specific optical fibers. • Modal field calculation of fiber & integrated optics devices. • Document preparation and desk top publishing. • Scientific computing using: <ul style="list-style-type: none"> • FTP • LaTeX • Netlib • Macintosh • Ghostview • UNIX • Matlab • Telnet • NIH Image • Mathematica • HTML • LAPACK • Windows • FORTRAN • Mayura Draw
Skills and Experience	<ul style="list-style-type: none"> • Extensive library and online literature search experience. • Years of technical presentation experience. • Excellent verbal and written communication skills. • Hands on experience in optical fiber: <ul style="list-style-type: none"> • Laser • Cleaver • Splicer • Spectroscopy • Interferometer • Imaging • Coupler • Alignment • Photodetector • Preform Profiler
Fiber Optics	
Electronics	<ul style="list-style-type: none"> • Familiarity with electronics: <ul style="list-style-type: none"> • Sensor • Soldering • Controller • Measurement • Signal Conditioning • LabVIEW • Wire Wrap • Interfacing • PCB Fabrication • Schematic Diagram
Mechanics	<ul style="list-style-type: none"> • Skilled in basic mechanical design: <ul style="list-style-type: none"> • Optical Mount • Detector Housing • Optical Table Stand • Strong interpersonal skill with all levels. • Innovative, dynamic, and detail oriented.
Employment History	<ul style="list-style-type: none"> • Research Engineer, Otolaryngology Research Center, New England Medical Center, Boston, MA (9/1998 – 10/1999). <ul style="list-style-type: none"> • Research in laser-tissue interaction with Dr. Kathleen McMillan. • Develop and test instruments, undertake laboratory and animal research. • Investigate high energy pulsed and CW 810 nm diode lasers in otolaryngology. • Study diagnostic fluorescence spectroscopy in otolaryngology. • Adjunct Instructor, Division of Computer Science, Quincy College, Quincy, MA (Fall Semester 1998). <ul style="list-style-type: none"> • Teach Computer Architecture, a new advanced-level course at Quincy College. • Postdoctoral Fellow/Visiting Research Fellow/Visiting Research Associate, Department of Electrical and Electronic Engineering, The University of Hong Kong, Hong Kong (3/1995 – 1/1998). <ul style="list-style-type: none"> • Research in interdiffusion modified quantum well structures with Dr. E. Herbert Li. • Extended the modified Fourier decomposition method to quasi- and full-vector regime. • Applying the modified Fourier decomposition method to study interdiffusion modified quantum well waveguides and couplers. • Research Fellow/Visiting Fellow, Department of Electronic Engineering, City University of Hong Kong, Hong Kong (3/1995 – 1/1996). <ul style="list-style-type: none"> • Research in optical communications, fiber and integrated optics, and numerical methods with Prof. Kin-Seng Chiang. • Implement the modified Fourier decomposition method for waveguides modeling. • Design a two-core optical fiber with zero intermodal dispersion. • Demonstrator, School of Physics, The University of Sydney, Australia (7/1990 – 10/1991). <ul style="list-style-type: none"> • First year physics laboratory instruction and grading.

Employment History	<ul style="list-style-type: none"> Marking of first year physics assignments. Research Assistant, Department of Applied Physics, The Hong Kong Polytechnic University, Hong Kong (8/1989–2/1990). Working with Dr. Kai-Shui Lau in fiber optic sensors. Setting up the fiber optic laboratory. Implementation of optical fiber Michelson and Mach-Zender interferometer.
Education	<ul style="list-style-type: none"> Doctor of Philosophy in Applied Optical Fiber Theory, School of Physics and Optical Fiber Technology Center, The University of Sydney, Australia (6/1995).
Study Areas	<ul style="list-style-type: none"> Numerical Methods Fiber Optic Sensors Theory of Optical Fiber Modal Fields with Application to the Design of Evanescent Field Devices Dr. Ian M. Bassett Optical Fiber Theory Optical Communications Fiber & Integrated Optics Prof. Ross C. McPhedran Physics of VLSI
Thesis Title & Supervisors	<ul style="list-style-type: none"> Theory of Optical Fiber Modal Fields with Application to the Design of Evanescent Field Devices Dr. Ian M. Bassett Prof. Ross C. McPhedran
Courseworks	<ul style="list-style-type: none"> Bachelor of Science in Applied Physics with First Class Honors, Hong Kong Baptist University, Hong Kong (12/1989). <ul style="list-style-type: none"> Optics Electronics Instrumentation Charges & Fields Optical Fiber Laser Doppler Velocimeter Dr. Robert Kai-Yiu Chan Thermodynamics Materials Science Integrated Circuits Solid State Physics Quantum Mechanics Microcomputer Interfacing Numerical & Statistical Methods Electromagnetic Waves & Radiation
Related Courseworks	<ul style="list-style-type: none"> Optics Electronics Instrumentation Charges & Fields Optical Fiber Laser Doppler Velocimeter Dr. Robert Kai-Yiu Chan Thermodynamics Materials Science Integrated Circuits Solid State Physics Quantum Mechanics Microcomputer Interfacing Numerical & Statistical Methods Electromagnetic Waves & Radiation
Thesis Title & Supervisor	<ul style="list-style-type: none"> Radio Amateurs' Examination Certificate, City and Guilds of London Institute (12/1987). <ul style="list-style-type: none"> Licensing conditions and transmitter interference Operating procedures, practices and theory
Awards and Honors	<ul style="list-style-type: none"> International Postgraduate Research Award, The University of Sydney, Australia (1/1991–6/1994) Equity and Merit Scholarship, The Australian International Development Assistance Bureau, Australia (3/1990–8/1994). Presidents Honor Roll, one of six semesters; Deans List, four of six semesters, Hong Kong Baptist University, Hong Kong (1986–1989). Kam Ngan Stock Exchange Scholarship, Hong Kong (1987 and 1988)
Publications	<ul style="list-style-type: none"> K. M. Lo, R. C. McPhedran, I. M. Bassett, and G. W.
