

SQUEEZE HEAD

My name is squeeze head and you all know why
When I'm stuck on a problem I just want to die

Been working on DFOs for just about a week
Just asked every Tech, but they don't give a Shiite

So that reproduces
A Squeeze Head
A Squeeze Head
A Squeeze Head

Three month on a system the pressures getting worst
His knowledge of obscenities is getting quite versed

How is all that squeezing affecting his head
No space between his ears squeeze is bound to turn up dead

{CHORUS}

Lying in his grave nothing left to troubleshoot
His corpse is laid to rest while decaying in it's boots

He couldn't get to Heaven cause he swore so much in life
Now he's squeezing out Souls to the Devils delight

{CHORUS}
