

The work of the Panel on Feline Vaccines was made possible by an educational grant from Fort Dodge Animal Health.

The guidelines incorporated in this report were developed on the basis of the best research information, clinical experience, and technical judgements available at the time of preparation. Although the information is intended to be accurate, thorough, and comprehensive, it is subject to change in light of developments in research, technology, and experience.

These guidelines are not exclusive, and other techniques and procedures may be available.

The AAFP and AFM expressly disclaim any warranties or guarantees, express or implied, and shall not be liable for any damages of any kind in connection with the material, information, techniques, or procedures set forth in these guidelines.
