Objective

- To obtain an administrative position in the field of Information and Communication Technology where proven management skills and a superior work ethic will add value and increase company profits.

Summary of Qualification

- More than 5 years of solid experienced in Red Hat Linux network and system administration. Knowledgeable in Windows servers network and system administration, Lockdown of both Linux and Windows server operating systems, Network Information Security, Vulnerability Assessment, and Penetration Testing. Deep understanding in TCP/IP and other network protocols. Experienced in network layout designing, structured cabling and LAN/WAN set-up. Proficient in PC assembly, configuration, troubleshooting and repair for both personal and embedded system. Basic experienced in Asterisk-PBAX installation, both Hardware and Software configuration.

- Excellent in E-Commerce Planning, Development and Implementation. Project Management, has a strong background in SDLC, Familiar in Web developing and programming using PHP and MySQL. Knowledgeable in Java, C, C++, PERL programming languages and Unix Shell scripting. Understand CMMI standardization.

Credentials

- Master in Information Technology (MIT)
  STI College Graduate School
  Major: MIS and Project Management
  Minor: Linux / Unix Operating System
  GWA: 1.54
  Graduated, May 2006

- B.S. in Computer Science
  Major: Networking (LAN/WAN)
  Minor: Software Engineering
  AMA Computer University
  GWA: 2.29
  Graduated, May 2003

- B.S. in Aircraft Technology
  PATTS College of Aeronautics
  June 1995 – October 1998

Professional Work Experience

- **Linux And Network Security Administrator**
  Orchid Cybertech Services Inc.
  ISP, Call Center and BPO Company
  Ortigas, Pasig City
  April 2007 - Present

Duties and Responsibilities

Administer 61 remote firewall/proxy servers through secured VPN. Administer local DBase server for Enterprise Resource Planning (ERP). Maintain computer network security related issues for the company and for the customers. Locked-down local servers using Red Hat Enterprise AS 5.0, Fedora and CentOS Linux distributions.

Install and Configure Linux operating systems in the company, Handles customer queries related to proxy server and web browsing security issues.

Daily preventive maintenance and quick response to system issues. Design and document procedures for system maintenance, setup, provisioning and upgrading through web-based. And write programs for automation in maintaining the servers through Shell script, PERL and Java Programming.

- **Graduate Studies Professor**
  Part-Time, Graduate Studies
  STI College Cubao, Q.C.
  2nd Semester, SY 2006

Duties and Responsibilities

Part-time professor in the Master in IT (MIT), graduate study program in STI College Cubao, Quezon City, Philippines.

- **IT Instructor / E-Commerce & Linux Lecturer**
  Tarlac College of Agriculture
  June2004 – April 2007

Duties and Responsibilities

Provides holistic and quality education in the field of IT for both high school, college students and professionals for development program. Also provides E-Commerce, JAVA, CMMI Standard Awareness and Advanced Linux Technical Training in the college and some universities in Region III.

Miscellaneous:

Install Linux and Windows operating systems in the college laboratory rooms, Linux network and Web Server installation and configuration. Maintain college computer hardware.

Also involve in Research and Development department of the college.

- **IT Instructor**
  AMA Computer University Las Pias
  1St Trimester 2nd Trimester, 2004

Duties and Responsibilities

Provides holistic and quality education in the field of Information and Communication Technology in different courses (BSIT, BSIM, BSCS and Computer Engineering)

- **IT Lecturer / HW & SW Administrator**
  Informatics Professional Devt Center
  September 2003 January 2004
  3rd Level SM-Bacoor, Cavite

Duties and Responsibilities

Handle corporate client for high-end courses like Unix/Linux Network and System Administration, Structured Cabling, PC Troubleshooting, Programming, Web Designing and Database Applications like SQL, MySQL, PL/SQL, and Oracle DBA.

Also responsible for Hardware and Software Administration.

- **Linux Network & System Administration Lecturer**
  Part-Time, Informatics Computer College
  July - August 2003
  Robinson Galleria, Ortigas Center

Duties and Responsibilities

Part-time technical lecturer in Linux Network and System Administration for corporate clients using Red Hat Linux Operating System.

- **Technical Trainee**
  Mosaic Communication (MosCom) Tarlac
  Internet Service Provider
  On-the-Job Trainee

Duties and Responsibilities

Linux Administration, TCP/IP Networking and Structured Cabling, Web Designing, Email Set up and Configuration, PC Trouble Shooting and Maintenance. More on Customers Oriented Services. Also involved in Multimedia and Web development.

Certifications

- Certified Professional in Unix and Linux Administration
  Licensing Agency: Cert.com
  Date Acquired: 2006

- Certified Professional in Network Administration
  Licensing Agency: Cert.com
  Date Acquired: 2006

- Certified Data Encoder
  Licensing Agency: TESDA Philippines
  Date Acquired: April 2005

- Civil Service Eligibility, Professional, 2005
  Licensing Agency: Philippine Civil Service Commission
  Date Acquired: May 2005

Computer Knowledge and Expertise

- Operating System: Unix FreeBSD and Digital Unix, Linux System and Network Administration, Windows Network Servers. System security locked-down for both Linux/Unix and Windows operating systems.

- PC Hardware: Networking, Structured Cabling, PC Troubleshooting and Assembly.

- Network Security Tools: Back|Track Linux and Nessus.

- Telephony: Basic PABX installation, VoIPnow and AskteriskNow software installation and configuration.

- Programming: GCC, C/C++, Java programming, Shell and PERL Scripting

- Web Application: PHP and MySQL, VNC, Macromedia Flash MX v.7, Dreamweaver MX v.7, Coldfusion MX, Ulead 3d Animator, Basic Adobe Photoshop, DHTML, CSS, JavaScript and basic XML.

- Miscellaneous: LAN/WAN (Routing and Switching) Set-up, Apache and Internet Information System (Windows IIS) Configuration, DNS / BIND configuration, Firewall,

Squid Proxy Server, TCP/IP, DHCP, NFS, NIS, SWAT / SAMBA, Network Information Security, Windows Active Service Directory management and Basic Electronics.

International Training Attended

- Advanced Linux Training of Trainers
  International Open Source Network (IOSN), Manila
  UP Diliman, Quezon City
  December 04-15, 2007

Training Description

Advanced Linux training for Networking and System Administration towards LPI Certification Exam. Topics covered are the following: TCP/IP, Network and System Security configuration, Kernel recompilation, Shell Scripting, DNS/BIND configuration, Sendmail configuration, Web server configuration, SAMBA / SWAT set-up, System back-up and Disaster Recovery System, Secured remote access (SSH/SFTP), VPN, Network File Sharing, Subnet masking, OSI Model and Network and System Monitoring and Maintenance.

- E-Commerce Trainers Training
  APEC Digital Opportunity Center (ADOC) Taipei
  Taipei City, Taiwan, R.O.C
  June 12 - July 22, 2006

Training Description

Cultivation of knowledge, planning and implementation in E-Business. Topics covered are E-Commerce concept and models, Project Management, ERP, BPO, Business Process Re-engineering, CPFR, Software Engineering, Industry Standards (CMMI, ISO and BS), E-Learning, M-Commerce, V-Commerce, Security, Supply Chain Mgt, Demand Chain Mgt, Logistics, Systems Development Life Cycle. Local and International E-Commerce Law

Local Training and Seminars Attended

- Open Source in E-Commerce, Guest Speaker
  Student Conference on IT Education
  PSITE Region 3, August 2006

- Administrative Discipline Training
  Tarlac College of Agriculture
  November 2005

- Project Management Training
  Tarlac College of Agriculture
  June 7, 2005

Publication, Research and Development

- Software Engineering and System Administration CMMI Adoption
Beneficiary: Total Peripheral Group and OCSI Company
Date Proposed: June 2007

- "Electronic Commerce"
Journal: Butil Kaalaman
Publication: Tarlac College of Agriculture
Date Published: August 2006

- "Electronic Commerce 101: Bridging the Digital Divide"
http://kiluahtech.webmo.org/
Online Publication

- IT Student and Software Incubator
Funding Agency: TAPI-DOST, Philippines
Pilot Testing: Tarlac College of Agriculture
Date Approved: April 2007

- Virtual Learning System
Beneficiary: Tarlac College of Agriculture
Funding Agency: Tarlac College of Agriculture
Date Approved: March 2005

- Computer-Based Entrance Examination
Beneficiary: Tarlac College of Agriculture
Funding Agency: Tarlac College of Agriculture
Date Approved: May 2005

Extra Curricular Activities

- Philippine Society of IT Educators (PSITE)
Member and Junior PSITE Adviser, Region 3
2005 - Present

- Philippine Computer Society (PCS)
Member, Open Source SIG
2005 – Present

- Linux Registered User No. 277904
Since May 2002
